Subject: RE: Mental Health America Awards Nominations

I am honored that you all consider me for this. I do believe that I continue to do active social work in my current job because social work is done on the micro level (with patients and organizations directly) and the macro level (regulations, systems, culture, etc.). I spent my first 15 years in the field focusing on micro level and now 15 years (my 15th anniversary with CBHNP/PerformCare/ACFC is Feb 18, 2017!) on the macro level.

Subject: Mental Health America Awards Nominations

Good Morning Katey & Dr. Golinkoff,

Mental Health America is asking for nominations for their conference awards which will be held in June. Jamie and I were speaking and agreed that Katey would be a great nominee for their Social Work Award. I've listed the criteria below. Dr. G, could you take a look and see if you agree?

The George Goodman and Ruth P. Brudney Social Work Award was established by the Board of Directors of MHA in November 1986. The award's establishment was made possible through a gift by George Brudney, a member of the MHA Board of Directors, in memory of his wife Ruth, a psychiatric social worker.

Criteria—Nominees must:

- Hold a master's degree (or higher) in social work from an accredited college or university;
- Hold a professional position in a public or private organization or agency and be primarily engaged in the provision of social work services to clients or patients who have a mental illness, the direct supervision or management of such services, or the development or implementation of innovative programs serving people with mental illnesses;
- Have demonstrated interest in and commitment to the profession of social work; and
- Have demonstrated dedication to improving the care and treatment of people who have mental illnesses.

The award winner will receive an expense paid trip to MHA's 2017 conference, including full registration fees, travel and hotel expenses for the entire conference.

He or she will be honored at the Awards Dinner on the evening of Wednesday, June 14, 2017, asked to offer remarks and ring the Mental Health Bell.
